

McCLELLAN TO AID COFFEY'S MAN

Will Stand as an Indorser of Swanstrom by Speaking at Same Meeting with Candidate Fusionists Indorsed.

In accepting an invitation to speak at a meeting of the Coffey Democracy in Brooklyn, George B. McClellan has placed himself in a peculiar position. The Coffey Democracy has indorsed Swanstrom, the Fusion candidate. By speaking from the same platform with him Mr. McClellan will stand as the indorser of a candidate on the rival ticket.

This is not entirely distasteful to the Tammany leaders. The McClellan candidate, Martin Littleton, has been particularly bitter in his attacks upon Tammany Hall, and Mr. Murphy would like to see him beaten.

Senator McGarvey is busily engaged in his work of reorganizing the Brooklyn Democracy. He asserts he has assurances that at the meeting of the Executive Committee on Monday evening the vote to indorse the entire Democratic ticket will be practically unanimous.

"We will carry our fight into the meeting of the Committee," said James Shevlin today, "and we expect to win. If McClellan had treated the other members of the Committee right the situation might have been different. He is a traitor, and he is trying to throw sand into the eyes of the people."

Hugh McClellan had nothing to say today. He is engaged in thinking. The Willoughby street headquarters bore resemblance to a morgue.

AT PEACE WITH NICARAGUA.

Guatemala Re-Establishes Friendly Relations Through Agent.

PANAMA, Oct. 16.—Nicaraguan cable advices received here by way of Acapulco, Salvador, say the conference proposed by President Escalon, of Salvador, Bonilla, of Honduras, and Zelaya, of Nicaragua, will take place Oct. 20, without the latter's presence because the National Assembly of Nicaragua has refused to permit him to leave the country.

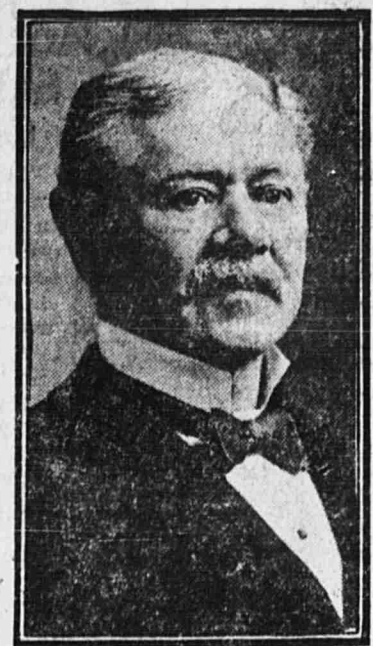

Confidential agents of the governments of Nicaragua and Guatemala have re-established friendly relations between these republics. The Nicaraguan Assembly has closed its session. The negotiations of Mr. Manning for the purchase of the Nicaraguan railroads have failed.

BRIDE OF TWO HOURS KILLED

CHARLESTON, S. C., Oct. 16.—Mrs. William Maszyk, who two hours before as Miss Lizzie Anderson had walked to the altar to become Maszyk's wife, was brained last night with an axe by Alice Maszyk, a first cousin of the bridegroom. The murder occurred at the wedding reception. The murderer cried as she delivered the blow: "You have taken away from me, but you shall never live with him."

Miss Maszyk escaped.

MICHAEL RYAN, WHO WAS KILLED BY A BRONX TROLLEY.

CHASED ROBBER IN THE BOWERY

While being taken along the Bowery by Detectives Mooney and Langan on suspicion of having stolen \$1,500 worth of silverware, a flashily dressed negro, who gave his name as Charles Miller, eighteen years old, bolted down the street and for four blocks almost eluded capture. A crowd of two hundred men, women and children tacked on and the cries and shouts of "Stop thief!" filled the air.

The arrest of the negro was purely accidental. The detectives happened to be in Simpson's pawn shop on Park Row when he came in offering the silverware for sale, and arrested him on suspicion. At Houston and Mulberry streets the negro, placed between Mooney and Langan, escaped. He ran over Houston street into Mulberry, followed by a crowd. At Prince street Mooney caught him.

The silverware was marked "C. H." with the exception of one knife which was engraved "Heltmeyer." The police found the owner, Clemens Heltmeyer, who has a business in New York and lives in Hoboken. The police learned from Mr. Heltmeyer that he had been robbed yesterday afternoon. The front door of his house had been left open. The house was looted of its silver knives, forks and spoons and other table ware.

Mrs. Heltmeyer, sent for by Inspector McCusky, came to New York in her carriage. She said that not all of her silverware stolen was in the two packages recovered from the negro.

BOWERY GRIEVES FOR "MIKE" RYAN

Former Treasurer of Wholesale Liquor Dealers' Association Killed by Trolley Car Near His Home in the Bronx.

There is mourning on the Bowery today. Michael Ryan, who for thirty-eight years kept the liquor store at the corner of Third street and the Bowery, was killed last night by a trolley car in the Bronx. To the last he showed the quality of fairness and honesty that made him a man honored in his business.

"I will make no complaint against the motorcar," he said, just before he died. "It was as much my fault as his." Mr. Ryan retired from business five years ago and moved from his home on the Bowery to No. 743 East One Hundred and Thirty-seventh street, Bronx Borough. He left the house last night to go to Harlem for theatre tickets.

Intending to take a westbound trolley car in One Hundred and Thirty-seventh street, Mr. Ryan stood at the corner of Brown place until he saw a car approaching. As he ran to catch it he was struck by an eastbound car that he had not observed.

Although in great pain Mr. Ryan refused to go to the hospital. He was able to walk and insisted upon going home. There it was found that he had sustained internal injuries, and a few hours after the accident he was dead. The motorman William Coughlin, of No. 706 Columbus avenue, was arrested today and held in Morrisania Police Court for the Coroner.

Mr. Ryan enlisted in the Sixty-ninth Regiment at the outbreak of the Civil War and served throughout that struggle. For thirty-eight years he was treasurer of the Wholesale Liquor Dealers' Association. The funeral will be held on Monday from St. Jerome's Church, in the Bronx.

AGAINST CLOSED SHOP.

Labor Union Methods Scored at Civic Federation Convention.

CHICAGO, Oct. 16.—Views by labor and employers in regard to the "open" shop were again presented today before the National Civic Federation, holding a three days' conference here. President Samuel Gompers, of the American Federation, called the meeting to order.

One of the first speakers was Henry C. Hunter, Commissioner of the Metropolitan Police Association of New York. He spoke in opposition to the closed shop on account of, as he said, the present condition of organized labor and the methods pursued by labor organizations for the accomplishment of their ends. Unions, he said, assume to control shop methods and regulate wages to the financial loss of employers and disorganization of industry and without regard to economic conditions.

SAYS LAWYER HAD A RIGHT TO SUE

Justice Barrett Declines to Adjudge G. W. Davison Guilty of Contempt of Court for Foreclosing Mortgages.

Justice Barrett was asked today by H. W. Killen, counsel for Charles M. Preston, receiver for the New York Building Loan and Banking Company, to adjudge George W. Davison, another lawyer, in contempt of court for having violated a restraining order of the Court.

Mr. Killen explained that when Justice Dugro appointed Mr. Preston receiver he issued an order restraining all foreclosure suits against the company. He charged that Mr. Davison had violated this order by foreclosing three mortgages in behalf of his clients, Francis I. Butler, Mary H. Bulley and Margaret Tenny.

In opposition Mr. Davison explained that he had obtained judgment in the two first suits before Mr. Preston's appointment, and as to Mrs. Tenny's suit, he obtained permission to prosecute from Justice Marston, in Brooklyn, and joined Preston as a defendant.

Justice Barrett declined to declare him in contempt under the circumstances.

Mr. McCloskey, attorney for the Members' Protective League, asked permission to examine a book containing names of the stockholders of the Building Loan and Banking Company, and an order directing Receiver Preston to permit the examination on the petition of John T. Fitzgerald and Charles Selner, stockholders and members. Mr. Killen objected. He said the application was made simply to enable the law firm of McCloskey, Beiler & Flaherty to copy the list of 6,000 stockholders and the addresses so as to arrange some scheme of litigation for a contingent fee.

The application was denied.

PLEADS GUILTY TO MURDER.

Armenian Says He Aided in Killing Under Threat of Death.

PROVIDENCE, R. I., Oct. 16.—A plea of guilty to a charge of murder was made in the Sixth District Court before Judge Sweetland today by Sharkio Nargashian, an Armenian, and he was held without bail for the Grand Jury. The man was accused of having murdered, yesterday, Peter Quolosian, Treasurer of an Armenian society, to obtain the \$200 which the Treasurer was known to have in his possession.

Nargashian, through an interpreter, told the Court that he had no purpose of his own to commit murder, but that while several men were together Wednesday a companion, whose name he would not give, threatened to kill Nargashian if he refused to assist in murdering Quolosian. The victim, he said, was lured into an old stable, killed and robbed. Not only does the prisoner refuse to tell the name of the alleged principal, but he will not say what became of the money taken from the murdered man.

What Public Opinion Says of Lambert Wares and Ways.

Some fashions shift like quicksands, others are firmly rooted as oaks. Notice how few of the people you meet are absolutely bare-handed. The wearing of finger rings of some sort is practically universal among women and is increasing among men.

Rings of infinitely varied design and all prices form one of the most attractive departments of the great LAMBERT store. When we began making rings we appealed to the most powerful of earthly tribunals—Public Opinion.

This authority has sustained us for nearly twenty-seven years. In the long run, there is only one way to earn popular confidence—deserve it. Goods we do not make we buy of the best manufacturers. Thus we do away with middlemen's profits, and THAT IS ONE OF THE REASONS WHY LAMBERT JEWELRY IS SO LOW PRICED. Of the freshness and elegance of our designs our friends need no assurance. Strangers can satisfy themselves in one call. Why we had to enlarge our factory last year will be plain to any one who examines our stock and our methods.

Real, honest jewelry need not be expensive. We sell a diamond ring for \$10, and we have diamond ornaments of many kinds at figures correspondingly low. However low priced an article may be, the LAMBERT guarantee goes with it. We have a large and busy factory—getting busier every day about this time—in which there is only one grade of work—THE BEST—

The Pledge of a Life's Devotion.

Most significant of all rings is the wedding ring. It must be of pure gold and must last a lifetime. It is worn constantly from the moment the bridegroom puts it on the bride's outstretched finger. No detail of the wedding ceremony is more important than the selection of the ring. All the LAMBERT wedding rings are made in our own factory. This branch of our enterprise made us widely known

years ago, and bridegrooms elect come to us for the same reason that other people do—because they know that every statement made in the LAMBERT store is worth face value. Our wedding rings are seamless. The purity of the gold has been established by the United States Assay Office, a perfectly cold-blooded institution that gives the facts, no matter who may be helped or hindered. Plain and simple as it seems, a LAMBERT wedding ring is the product of as fine workmanship as anything in our stock. All widths, weights and sizes, 14, 18 and 22-karat. Prices from \$3 to \$20. No charge for engraving.

Some Light on Diamonds.

Perhaps you wonder why diamonds can be bought so reasonably at the LAMBERT store.

The explanation is simple enough. We import our diamonds, and when you buy them you pay the importer's price. You do NOT pay part of the cost of the wholesaler's new house nor of the jobber's steam yacht. Only by cutting down these intermediate profits can the price of the most beautiful of precious stones be lowered. The difference between the LAMBERT price for diamonds and the ordinary retail price is at least twenty-five per cent.

Diamonds are an investment. At any time within a year from purchase you may return us any single-stone Ring, Stud or Earrings for exchange for larger purchases of diamonds, and we WILL CREDIT YOU WITH THE FULL PRICE PAID. COULD ANY DOUBT OF THE QUALITY OF LAMBERT DIAMONDS EXIST WHEN WE OURSELVES RECEIVE THEM AS MONEY?

Quaint Conceits in Seal Rings.

The fancy for seal rings is one of the strongest proofs of that advance in taste of which we have spoken. These rings lend themselves ready to a thousand novel and charming schemes of decoration. How artists have availed themselves of their opportunities is apparent to all who have examined the LAMBERT work. All that is stale and commonplace, all that smacks of routine and of servile imitation, is excluded. Upon the seal surface is impressed the individuality of the wearer. There may be engraved his monogram, his crest or any other device he pleases. Out of the abundance of our assortment we select a few specimens that show the high average of the whole.

This ring is a beauty. Notice that the catails are free and graceful in modelling. No stiffness nor formality of treatment here. Solid 14-karat gold, only..... \$6.50

Winged Lions, found oftener in books on heraldry than in African jungles, grasp this seal between their outstretched paws. Solid 14-karat gold. Richly and massively designed. Price..... \$18

Another low-priced ring. The classic head and the pierced effect unite to produce an odd and pleasing design. Solid 14-karat gold. For quaint and out-of-the-way ornaments like this people come to the LAMBERT store..... \$6.75

In the tiny female figure are all the vigor and spirit of the best art. The owner never gets tired of wearing such a ring, nor his friends of admiring it. Solid gold. We sell it for..... \$10

Extra heavy chased 14-karat gold; picture gives an approximate idea of its beauty. As a gift, reflects credit on the donor, who need pay only \$15

Fine Watch for Ladies, Lambert Quality and Price.

This watch will not merely please the lady who wears it by its appearance, but she can depend on it for correct time. The case is engraved in a new style, not overlaid with detail, but rich and handsome. We buy cases of the very best manufacturers and we have a sample of every lot tested at the United States Assay Office. We give choice of Elgin, Waltham or LAMBERT works. The watch shown is a little heavier than the one we sold last year at the same price, \$27.50.

A sufficient proof of the excellence of our watch-repairing department is that we are watch inspectors for the New York Central and Long Island Railroads. They will have only the most trustworthy, you know.

Varied Beauty in Diamond Rings.

If it were not for printers' ink we could not talk to a whole cityful of people at once. Yet printers' ink has its limitations. It cannot do anything like justice to the beauty of our diamond rings. A general notion of form and setting is all it can convey. Please remember that when you compare the descriptions and the illustrations.

The diamond in this Ring is our own importation, and is cut so as to show its remarkable beauty to the best advantage. Solid 14-karat gold. Something to gladden the eyes of every lover of beautiful stones and artistic mountings. \$27.50.

Just as much pains taken with this dainty bit of work as with the costliest piece we exhibit. One of the most popular Rings that ever came from the LAMBERT factory. Solid 14-karat mounting, hand made. Yours for \$50.00.

All the beauty of this fine stone is brought out in the skilful cutting. Solid 14-karat gold, hand-made mounting; would cost a fancy price at some of the other stores, because importer's and jobber's profit would be added. Diamond is about the size shown in the cut. Our price \$90.00.

Between this stone and the one just described is a difference of size. Setting and brilliancy are the same. A gem fit to be handed down as an heirloom. Solid 14-karat gold mounting, hand made. Price, \$160.00.

A larger stone, cut with marked skill, and shining in a LAMBERT hand-made mounting. Solid 14-karat gold. A glance will show its superiority to diamonds of the same size badly cut, and sometimes gravely offered to the unsuspecting as "bargains." We sell it for \$200.00.

One need not be an expert to demand why this Ring is admired by everybody who sees it. The stone—our own importation—flashes its own story to appreciative eyes. Solid 14-karat mounting. We sell it for \$250.00.

This Lady's Ring, with two fine diamonds, and a real sapphire, in 14-karat solid gold, hand-made setting, is notable for its elegance and simplicity. A brilliant example of LAMBERT methods. By cutting off middlemen's profits we sell it for \$165.00.

Three superb diamonds glowing in this Ring make it one of the gems of the LAMBERT collection. For stones less fine, for workmanship less admirable, people pay extravagant prices. Our price is \$275.00.

This is a taper band Ring of solid 14-karat gold, designed and made in the LAMBERT factory. The diamond is of fine quality, and the price is but \$25.00.

And here is a Belcher Ring, with the beautiful diamond set so that the setting will not catch in a glove. In high favor on that account. Mounting of solid 14-karat gold, hand made. A fine example of LAMBERT work, \$30.00.

Simpson Crawford Co.

SIXTH AVE. 19TH TO 20TH STREETS

SATURDAY

will be a good day to see the Art Gallery—a superb collection of Paintings and Pictures.

2,000 High Grade Men's Suits, worth up to \$20.00, 11.00
850 Elegant New Winter Overcoats, always \$15.00, 11.00

A sale offering unusual inducements the one of to-morrow climbs on the pedestal of value-supremacy. It offers to every man who takes advantage of it a complete wardrobe of outer-wear at a price never before equalled. Just why or just how it all happens is a long story. But the conclusion is one and the same—the clothing is here, we know where it came from, we know just how good it is, just how far we can go in a recommendation of it. We know we can assert the truth, which is a part of the policy of Simpson Crawford Company, that

No Such Values Have Ever Been Given in New York.

The Suits are:

All the wanted fabrics in Fancy Cheviots, double and twists; Black Thibet, Worsted and Cassimere effects in double and single breasted styles; made with mohair serge lining and best trimmings; every detail perfect—in fit, style and quality; large range of patterns for selection.
